

Car Charger

OnDrive 85

Stay fully powered anywhere you go with the OnDrive 85, a car charger designed to deliver professional-grade performance in a compact form. Equipped with a high-output USB (C) port supporting up to 65W Power Delivery, it can charge modern laptops, tablets, and smartphones at maximum speed. Alongside it, a QC18W USB (A) port provides fast, dependable charging for legacy devices, ensuring full compatibility with all your tech.

With a combined total output of 85W, this charger erases the need to compromise when powering multiple devices at once. Built-in protocols such as PD3.0, QC3.0, FCP, and AFC guarantee broad support across brands, adapting automatically to your device’s requirements for safe, efficient energy transfer.

Durability and safety are at the core of its design. The OnDrive 85 features short-circuit protection to safeguard both your car and devices, and its precision-engineered PC shell ensures a solid build that withstands daily use. A subtle white LED indicator provides clear visibility without distracting from your drive.

When you’re commuting, traveling for business, or heading out on a family trip, the OnDrive 85 will provide a charging solution powerful enough for laptops yet versatile enough for everyday devices.

HIGH-POWER FAST CHARGING UP TO 85W

With a total output of 85W, the OnDrive 85 ensures even demanding devices like laptops and tablets charge at full speed. The USB (C) port delivers up to 65W Power Delivery, and the USB (A) port supports QC18W fast charging.

INTEGRATED SAFETY SYSTEM

Your devices are protected by built-in short-circuit prevention, which automatically cuts off power in case of irregular current. This feature helps keep your car and electronics safe during long drives or heavy usage.

CLEAR & SUBTLE LED INDICATOR

A soft white LED light activates while the charger is in use, letting you know it's working without distracting from the road. Its brightness is carefully balanced so it remains visible day or night.

DUAL-PORT VERSATILITY

The OnDrive 85 combines one USB(C) and one USB(A) port, giving you the freedom to charge both new-generation and older devices at the same time. From smartphones to laptops, all your essentials stay powered with one compact charger.
