

Wall Charger

OnCharge 65RC

The OnCharge 65RC Wall Charger is a high-performance device for users who need speed, efficiency, and reliability. Powered by advanced GaN (Gallium Nitride) technology, this 65W charger delivers power in a compact form. It accelerates charge times for laptops, tablets, and smartphones without the bulk. GaN technology maintains energy efficiency, low heat generation, and a smaller footprint compared to traditional silicon-based chargers.

With a built-in 68 cm USB(C) cable delivering up to 60W, an additional USB(C) port offering 65W, and a USB(A) port providing 30W, multiple devices can be charged simultaneously. With this charger, powering up a laptop during back-to-back meetings or topping off a phone and tablet at the end of the day is effortless. With an integrated cable, there's no need to carry extras, which reduces cable clutter.

Constructed from flame-retardant PC material and supporting universal 100–240V input, the OnCharge 65RC is durable and travel-ready. Thanks to compact dimensions, it's easy to pack, and the EU plug ensures seamless compatibility across Europe. Fast and intelligent, this wall charger keeps pace with modern life.

GaN TECHNOLOGY

Thanks to GaN technology, the OnCharge 65RC delivers up to 65W of power with high energy efficiency, reduced heat generation, and a smaller size compared to conventional chargers.

GaN

The background of the slide features a complex, glowing circuit board pattern in shades of blue and white. In the center-right, there is a prominent square chip with a grid-like texture, labeled 'GaN' in white text. The overall aesthetic is high-tech and futuristic.

CHARGE 3 DEVICES SIMULTANEOUSLY

Equipped with a built-in USB(C) cable, a dedicated USB(C) port, and a USB(A) port, you can power laptops, smartphones, and tablets at the same time with no need for multiple adapters.

BUILT-IN RETRACTABLE TYPE C CABLE

The integrated 68 cm USB(C) cable reduces cable clutter and helps create a convenient, travel-friendly experience for users on the move.

UNIVERSAL COMPATIBILITY (100–240V)

Supporting global voltage standards from 100V to 240V, the charger adapts to any power outlet worldwide, which makes it perfect for international travel, business trips, or multi-region use.

COMPACT AND DURABLE

Constructed from flame-retardant PC material, the OnCharge 65RC is both portable and durable: it performs reliably and stays heat resistant in demanding environments.

SMART POWER DISTRIBUTION

Thanks to intelligent power allocation technology, output is automatically adjusted across all connected devices. Charging speeds stay optimal while the devices are protected against overload, overheating, and short circuits.

SUPPORT FAST CHARGING

Engineered for speed and efficiency, this adapter supports fast charging for phones, tablets, and laptops alike. Delivering up to 60 W of power, it ensures your devices reach full charge quickly — so you stay powered and productive without the wait.

CERTIFIED SAFETY

Fully compliant with CE, CB, RoHS, and ERP safety and environmental standards, the OnCharge 65RC meets international regulations and keeps every charge protected.

ALWAYS WITH YOU

Designed for life on the go, this compact wall power adapter slips easily into your bag, keeping your devices charged wherever you are. Lightweight yet powerful, it's the perfect travel-ready companion for work, trips, or everyday use.

PULL TO CHARGE

All your power in one motion for instant charging — no extra cables, no setup. Just pull, plug in, and power up wherever you are.
