## Foldable Selfie Stick

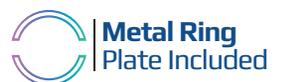

with **BT Remote Control**

MagStick

MagStick is your versatile photography companion, featuring a telescopic design for flexible shot capture and MagSafe mounting for easy iPhone attachment. With a foldable structure and a detachable remote control, it transforms into a tripod stand and offers seamless wireless operation. The impressive 10m range adds versatility, and its durable build ensures reliability. Elevate your photography experience with MagStick's modern design and advanced features.

## Telescopic Selfie Stick

The telescopic design of MagStick allows you to effortlessly extend and retract, providing the flexibility to capture the perfect shot at any desired distance

## MagSafe Mounting

Wirelessly mount your latest iPhone by simply placing them on the MagSafe holder

## Foldable Structure

MagStick has a foldable design that opens up to offer a tripod stand while maintaining its lightweight form factor for enhanced portability

## Detachable Remote Control

The built-in remote, which is detachable, ensures seamless wireless control, allowing you to capture photos or start videos with precision and convenience

## 10m Operating Range

With an impressive 10-meter range, the remote control provides the freedom to capture perfect shots from a distance, adding versatility to your selfie-taking experience

## Durable Make

Made from high-quality Aluminum alloy and PC plastic, MagStick is super durable, with a sleek finish
