Note:
^[1] The max memory is based on the test results with current Lenovo memory offerings.
^[2] Due to the limitations of the system platform, upgrading the UFS memory card to an SSD while maintaining the factory configuration will result in the PCIe M.2 interface operating at half its standard speed.
^[3] The system has one M.2 2242 SSD or one UFS storage card exclusively.
^[4] The storage capacity supported is based on the test results with current Lenovo storage offerings.
^[5] IPS (in-plane switching) technology may refer to IPS, PLS, ADS, AHVA, AAS.
^[6] The system dimensions may vary depending on configurations.
^[7] The system weight is approximate and based on results in Lenovo lab, which varies depending on the source of component, variance of the distribution of each component, and manufacturing process. It may not be the exact weight for each specific model.
