

Typing, gaming, creating – whatever your day promises, the Fortnax GKW-2 Wireless Membrane Keyboard can keep up with you. Crafted for faultless multitasking, this keyboard offers three connection modes – 2.4G wireless, dual BT channels, and a wired option, all so you can switch between your PC, tablet, and even your phone. Smooth and uninterrupted workflow is at your fingertips.

But function alone isn’t enough: comfort and style matter just as much. With soft membrane keys that deliver a satisfying keystroke and an RGB backlight system with 10 stunning modes, your workspace can turn into a customizable experience. Enjoying a game or powering through late-night work with the Fortnax GKW-2 adds both precision and personality to every keystroke.

And just in case, this device comes with a splash-proof design, so an accidental coffee spill won’t ruin your day. With an impressive 10-million keystroke lifespan, this keyboard is built to go the distance. Plus, the 2000mAh rechargeable battery will keep you powered up no matter how critical a task or an intense gaming session. The Fortnax GKW-2 is a reliable companion for work, play, and everything in between.

VIBRANT COLOR

Keyboards don't have to be boring. The Fortnax GKW-2 brings your setup to life with stunning RGB backlighting that sets the mood. Work late, game hard, or just vibe to your favorite playlist – your keyboard will glow just the way you like it.

MEMBRANE KEYBOARD

Smooth, quiet, and truly comfortable. This membrane keyboard is designed for those who type all day and game all night. Each keystroke is soft yet responsive, keeping finger fatigue at bay and the action precise.

3 CONNECTION MODES

Why settle for one way to connect? The Fortnax GKW-2 has three versatile options: 2.4G wireless for lag-free performance, dual BT channels for multitasking across devices, and a wired mode for when you need some extra reliability.

RECHARGEABLE

Ditch the disposable batteries! With a 2000mAh rechargeable battery, you get long-lasting power. Charge up, get to work (or play), and enjoy hours of uninterrupted performance. Your focus should be on what you're doing, not your keyboard's charge levels.

10 RGB BACKLIGHT MODES

From subtle glows to full-on rainbow waves, 10 customizable backlight modes provide the perfect ambiance. Whether you're up for focused lighting for late-night productivity or more energy during intense gaming sessions, there's a setting for every mood.

SPLASH-PROOF

Spills happen to anyone. The splash-proof design is there so that an accidental coffee or soda spill doesn't ruin your keyboard. Keep typing or gaming – without the stress of little mishaps.

BUTTONS LIFESPAN: 10 MLN CLICKS

Designed for endurance, every key on the Fortnax GKW-2 can withstand up to 10 million keystrokes. This keyboard is made to last through any work project or marathon gaming session.
